***Information Disclosure Statement***

12. It is noted that the applicant's submission of Prior Art, specifically papers No. 6, 8 and 10, were not located by the examiner at the time of this office action. Therefore, none of the references listed therein have been considered and the applicant is kindly asked to resubmit any and all Non Patent Literature that the applicant wishes the examiner to consider. The applicant also should resubmit the appropriate PTO 1449 forms including any and all references the applicant would like the examiner to consider and the examiner apologizes for any inconvenience this may cause. It is noted that the applicant does not need to submit actual copies of Patents as they are readily available to the examiner.

***Drawings***

13. New corrected drawings in compliance with 37 CFR 1.121(d) are required in this application because elements and element notations are hand written. Applicant is advised to employ the services of a competent patent draftsman outside the Office, as the U.S. Patent and Trademark Office no longer prepares new drawings. The corrected drawings are required in reply to the Office action to avoid abandonment of the application. The requirement for corrected drawings will not be held in abeyance.

***Conclusion***
